## ABOUT ME

I am a Computer Engineering undergraduate with a keen interest in the dynamic field of data science. I'm creative and competitive. While I may not have formal work experience yet, I embarked on a valuable internship that provided me with practical insights into the industry. I've actively participated in numerous events, hackathons, and competitions, where I've had the chance to apply my skills, collaborate with peers, and solve real-world challenges.

## SKILLS

- Java
- C
- Python
- Verilog Coding
- Data Structures
- Canva

## EDUCATION

### BE (COMPUTER ENGINEERING)

New Horizon College of Engineering | 2025 | 9.48 cgpa

### XII

Narayan e-Techno School | 2021 | 92.4%

### X

Cambridge School | 2019 | 91.3%

## EXPERIENCE

### INTERNSHIP

#### Intra Institute Summer Internship

3 weeks internship:  
Soft skills training  
IT skills  
Experiential learning

### ACADEMIC PROJECTS

#### Smart Plug

It is a plug which can be operated remotely using a smartphone app.

#### Student Database Management System

Minimalistic student database management system programmed in Python.
